Professional Summary

Detail-oriented and performance-driven Frontend & MERN Stack Developer currently pursuing B.E. in Electronics and Computer Engineering with hands-on experience building scalable web applications using Next.js, React, and Tailwind CSS. Experienced in developing AI-simulated frontend systems, optimized UI architectures, and modern portfolio-grade applications. Passionate about building clean, maintainable, and production-ready applications.

Education

Bachelor of Engineering (B.E.) – Electronics and Computer Engineering

Zeal College of Engineering and Research, Pune

CGPA: 7.2 | Currently in Third Year

Technical Skills

Frontend:

- React.js
- Next.js (App Router)
- Tailwind CSS
- JavaScript (ES6+)
- TypeScript
- HTML5, CSS3

Backend:

- Node.js
- Express.js

Database:

- MongoDB

Tools & Platforms:

- Git & GitHub

- Vite
- VS Code
- npm
- REST APIs

Internship Experience

MERN Stack Developer Intern – Techsonix Solutions

- Developed full-stack web modules using MongoDB, Express.js, React, and Node.js.
- Built responsive UI components using React and Tailwind CSS.
- Integrated REST APIs and handled CRUD operations.
- Improved frontend performance and modular code structure.
- Collaborated with team members using Git-based workflows.

Projects

Personal Developer Portfolio (Next.js 14/16)

- Built using Next.js App Router and Tailwind CSS.
- Designed scalable project structure optimized for performance.
- Implemented responsive layouts and reusable UI components.

Smart Campus Grievance Management System (Frontend Simulation)

- Built a complete React (Vite) frontend-only application.
- Simulated AI-based complaint prioritization using JavaScript logic.
- Managed static/mock JSON data to replicate backend functionality.
- Designed dashboard UI for campus-wide grievance handling.

Sai Shoes E-commerce Website

- Developed modern e-commerce frontend with React and Tailwind CSS.
- Implemented product listing, filtering, and cart simulation.
- Followed scalable folder structure and reusable components strategy.

Certifications & Learning

- Completed Web Development and DSA Courses from Apna College.
- Practical training in MERN Stack development.
- Continuous self-learning in Next.js and modern frontend architecture.

Career Objective

To secure a challenging role as a Frontend or Full Stack Developer where I can apply my MERN stack skills, contribute to scalable product development, and continuously grow as a software engineer.
